## Author index of volume 9 (2006)

- Alexeev A.D., Ulyanova E.V., Kalugina N.A., Degtyar S.E.** Phase transitions in the coal-water-methane system. No. 1(45), 109.
- Alexeev D.S.** see **Izyumov Yu.A.** No. 3(47), 545.
- Amrane N.** Positron annihilation in boron nitride. No. 4(48), 763.
- Antoniouk Alexander Val., Antoniouk Alexandra Vict.** Nonlinear effects in the regularity problems for infinite dimensional evolutions of unbounded spin systems. No. 1(45), 5.
- Antoniouk Alexandra Vict.** see **Antoniouk Alexander Val.** No. 1(45), 5.
- Avella A., Mancini F., Plekhanov E.** Ergodicity in strongly correlated systems. No. 3(47), 485.
- Avella A.** see **Mancini F.** No. 3(47), 569.
- Babich A.V., Berezovsky S.V., Klepikov V.F., Sereda Yu.V.** Soliton-like order parameter distributions in the critical region. No. 1(45), 121.
- Berche B., Chatelain C., Dufour C., Gourieux T., Karevski D.** Historical and interpretative aspects of quantum mechanics: a physicists' naive approach. No. 2(46), 319.
- Berezovsky S.V.** see **Babich A.V.** No. 1(45), 121.
- Bobrov R.O., Kyrylyuk A.V., Zatovsky A.V.** Behavior of passive admixture in a vortical hydrodynamic field. No. 1(45), 103.
- Bogolyubov N.N.** see **Soldatov A.V.** No. 1(45), 151.
- Boldeskul I.E., Sukhodub L.F., Kalinkevich A.N., Khavryutchenko V.D.** Ab initio modelling of calcium phosphate clusters and their vibrational spectra. No. 4(48), 669.
- Bornath Th.** see **Kremp D.** No. 3(47), 431.
- Cabrera H., Marcano A., Castellanos Y.** Absorption coefficient of nearly transparent liquids measured using thermal lens spectrometry. No. 2(46), 385.
- Cabrera J.L., Luciani C., Milton J.** Neural control on multiple time scales: Insights from human stick balancing. No. 2(46), 373.
- Canova L., Jascur M.** The effect of uniaxial crystal-field anisotropy on magnetic properties of the superexchange antiferromagnetic Ising model. No. 1(45), 47.
- Cao J.** see **Zhukov A.V.** No. 4(48), 637.
- Castellanos Y.** see **Cabrera H.** No. 2(46), 385.
- Chalyi A.V.** see **Vasil'ev A.N.** No. 1(45), 65.
- Chaschin N.I.** see **Izyumov Yu.A.** No. 3(47), 545.
- Chatelain C.** see **Berche B.** No. 2(46), 319.
- Čanová L.** see **Strečka J.** No. 1(45), 179.
- Daza J.** see **Sigalotti L.Di G.** No. 2(46), 359.
- Degtyar S.E.** see **Alexeev A.D.** No. 1(45), 109.
- Derzhko O., Myhal V.** A microscopic theory of photonucleation: Density functional approach to the properties of a fluid of two-level atoms, a part of which is excited. No. 4(48), 703.
- Donoso A.** see **López H.** No. 2(46), 351.
- Donoso A.** see **Sigalotti L.Di G.** No. 2(46), 359.
- Dubrovskii I.M.** Classical statistical thermodynamics of a gas of charged particles in magnetic field. No. 1(45), 23.
- Dubrovskii I.M.** Quantum statistical mechanics of electron gas in magnetic field. No. 4(48), 645.
- Dufour C.** see **Berche B.** No. 2(46), 319.
- Farenyuk O.Ya., Shvaika A.M.** Band electron spectrum and thermodynamic properties of the pseudospin-electron model with tunneling splitting of levels. No. 1(45), 135.
- Freericks J.K., Zlatić V.** Nonlinear Peltier effect and the nonequilibrium Jonson-Mahan theorem. No. 3(47), 603.
- Gajjar P.N.** see **Patel V.N.** No. 4(48), 741.

- Galachenko T.E.** see **Soldatova E.D.** No. 1(45), 115.
- García-Ñustes M.A., Trujillo L., González J.A.** A recipe for an unpredictable random number generator. No. 2(46), 367.
- Gonchar N.S.** Information model of economy. No. 1(45), 201.
- González J.A.** see **García-Ñustes M.A.** No. 2(46), 367.
- Gourieux T.** see **Berche B.** No. 2(46), 319.
- Graves S.M.** see **Mason T.G.** No. 1(45), 193.
- Grigorishin K.V.** see **Lev B.I.** No. 1(45), 81.
- Gryshchuk A.M.** see **Makhanets O.M.** No. 4(48), 719.
- Hasan R.A., Kartsovnik M.V., Peschansky V.G.** Hall effect in organic layered conductors. No. 1(45), 145.
- Hera O.B.** see **Stasyuk I.V.** No. 3(47), 587.
- Holovatch Yu.** Introduction to renormalization. No. 2(46), 237.
- Ignatyuk V.V., Tokarchuk M.V., Kostrobij P.P.** Quantum kinetic equations approach to the description of chemical reactions between adparticles at a metallic surface. No. 1(45), 55.
- Ilytskyi J., Saphiannikova M., Neher D.** Photo-induced deformations in azobenzene-containing side-chain polymers: molecular dynamics study. No. 1(45), 87.
- Izyumov Yu.A., Chaschin N.I., Alexeev D.S.** Sd-model with strong exchange coupling and a metal-insulator phase transition. No. 3(47), 545.
- Jani A.R.** see **Patel V.N.** No. 4(48), 741.
- Janiš V.** Green functions in the renormalized many-body perturbation theory for correlated and disordered electrons. No. 3(47), 499.
- Janke W., Johnston D.A., Weigel M.** Two-dimensional quantum gravity – a laboratory for fluctuating graphs and quenched connectivity disorder. No. 2(46), 263.
- Jascur M.** see **Canova L.** No. 1(45), 47.
- Johnston D.A.** see **Janke W.** No. 2(46), 263.
- Kalinkevich A.N.** see **Boldeskul I.E.** No. 4(48), 669.
- Kalugina N.A.** see **Alexeev A.D.** No. 1(45), 109.
- Karevski D.** Steps toward the foundations of statistical mechanics: in and out of equilibrium. No. 2(46), 219.
- Karevski D.** see **Berche B.** No. 2(46), 319.
- Kartsovnik M.V.** see **Hasan R.A.** No. 1(45), 145.
- Kenna R.** Homotopy in statistical physics. No. 2(46), 283.
- Kharchenko D.O., Olemskoi A.I., Knyaz' I.A.** Nonequilibrium phase transitions in stochastic systems with coloured fluctuations. No. 1(45), 15.
- Khavryutchenko V.D.** see **Boldeskul I.E.** No. 4(48), 669.
- Khomenko A.V., Lyashenko I.A.** Temperature dependence effect of viscosity on ultrathin lubricant film melting. No. 4(48), 695.
- Klepikov V.F.** see **Babich A.V.** No. 1(45), 121.
- Knyaz' I.A.** see **Kharchenko D.O.** No. 1(45), 15.
- Konstantinov V.A.** see **Pursky O.I.** No. 4(48), 709.
