

LIST OF PAPERS PUBLISHED IN “PHYSICO-CHEMICAL MECHANICS OF MATERIALS” IN 2014

<i>Datsyshyn O. P., Panasyuk V. V., and Pryshlyak R. Ye.</i> The influence of the counterbody base edges curvature on stress intensity factors in a body with an edge crack.....	1	7
<i>Zeleniak V. M.</i> Investigation of the thermo-stressed state of two-dimensional composites with cracks	1	18
<i>Popovych V. S. and Zavadovska N. O.</i> A temperature-sensitive cylinder under convective heat exchange with variable temperature environments	1	25
<i>Mykhailyshyn V. S.</i> Solution of the thermoplasticity problem for a layered sphere by the finite element method	1	32
<i>Chernets M. V., Zhydyk V. B., and Chernets Yu. M.</i> Accuracy of sliding bearing life time estimation by the generalized cumulative wear model	1	39
<i>Dudyk M. V., Dikhtiarenko Yu. V., and Dyakon V. M.</i> The influence of joining material plasticity on the turning of interfacial crack at an angle point of the interface.	1	45
<i>Firstov S. O., Ostash O. P., Lugovskyi Yu. F., Kuzmenko M. M., Kulak L. D., and Spiridonov S. A.</i> Fatigue properties of thermodeformed Ti–Si alloys	1	53
<i>Ivasishin O. M., Markovsky P. E., Gavrysh I. M., and Karasevska O. P.</i> The influence of cooling rate under quenching on aging and mechanical characteristics formation of BT22 titanium alloy.....	1	60
<i>Pohrelyuk I. M., Sheikin S. Ye., and Yefrosinin D. V.</i> Surface strengthening of BT1-0 titanium under thermodiffusion with nitrogen in the temperature range 650..750°C.....	1	67
<i>Malyshev V. V. and Shakhnin D. B.</i> Titanium coating on the carbon steel: direct-current and pulse electrodeposition, physicomechanical and chemical properties	1	76
<i>Kryzhanivskiy Ye. I., Hoisan I. M., and Student O. Z.</i> Peculiarities of fatigue crack growth in 36Г2С steel of drilling pipes after restoration thermal treatment	1	86
<i>Bilous V. A., Borysenko V. M., Voyevodin V. M., Didenko S. Yu., Ilchenko M. I., Nekludov I. M., and Rybka O. V.</i> The radiation-absorbing properties of multilayer composites Al–Pb.....	1	92
<i>Yaskiv O. I., Fedirko V. M., and Kukhar I. S.</i> The influence of the melts of lead and eutectics lead-bithmus on fatigue life of martensitic and austenitic steels ...	1	96
<i>Balaban O. V., Grygorchak I. I., and Kondyr A. I.</i> The effect of the ultrasonic treatment on properties of pyrophyllite, thermodynamic and kinetic regularities of its intercalation by lithium	1	103
<i>Vynogradov D. V., Tikhonovsky M. A., Kolodiy I. V., Bobrov Yu. P., and Rudycheva T. Yu.</i> Research of the processes of hydrogen sorption and desorption of cast and fast quenched Zr–V alloys.....	1	110
<i>Yevtushenko O., Kuciej M., and Och E.</i> The influence of thermal sensitivity of materials on temperature under friction.....	1	117
<i>Rhaiem S., Nasri F., Kharrat M., and Dammak M.</i> Characterization of tribological behavior of chromium and zinc coatings electrodeposited on a steel substrate	1	123

<i>Demchenko V. L., Vilenskyi V. O., and Shtompel V. I.</i> Structure and thermo-mechanical properties of the systems based on epoxy polymer, metal oxides and polyanine.....	1	128
<i>Pamfilov E. A., Lukashov S. V., and Prozorov Ya. S.</i> The mechanochemical destruction of wood working machinery parts.....	1	134
<i>Balitskii A. I., Abramek K. F., Stoeck T., and Osipowicz T.</i> Diagnostic of degradation of the lock seal ring by the loss of combustion engine working gases.....	1	142
<i>Panasjuk V. V.</i> Concept of decohesion hydrogen effect on metals.....	2	7
<i>Dmytrakh I. M., Leschak R. L., Syrotyuk A. M., and Lutytskyi O. L.</i> The influence of bulk hydrogen concentration in metal on peculiarities of low-alloyed pipeline steel deformation.....	2	16
<i>Boiko V. M. and Hembara O. V.</i> Calculation of hydrogen redistribution kinetics in bi-metal joints.....	2	24
<i>Savruk M. P. and Kazberuk A.</i> Curvilinear cracks in an anisotropic plane and boundary transition to a degenerated material.....	2	32
<i>Andreikiv O. Ye., Skalskyi V. R., Dolinska I. Ya., and Matviiv Yu. Ya.</i> Determination of the period of subcritical creep crack growth by acoustic emission parameters.....	2	41
<i>Kun P. S., Shtayura S. T., and Lenkovskiy T. M.</i> Evaluation of the stress intensity factor for transverse shear cracks in a beam specimen.....	2	50
<i>Banakhevyh Yu. V., Dragiliev A. V., and Kychma A. O.</i> Diagnostics of the stress-strain state of multi-layer ring welded joints of pipelines.....	2	54
<i>Stashchuk M. H.</i> Evaluation of the admissible sizes of faulty fusions of thin-walled cell elements.....	2	60
<i>Onyshko L. Yo., Senyuk M. M., and Bida N. M.</i> Action of nonaxisymmetrical dynamic loading on the circumferential hole in an elastic infinite plane.....	2	69
<i>Kryvyy O. F.</i> The interface laminated inclusion in a piece-wise non-uniform transversally isotropic space.....	2	77
<i>Dovbnya K. M. and Krupko N. A.</i> Elastic interaction of a hole and four surface cracks of different length in an isotropic plate.....	2	85
<i>Slobodian B. S., Malanchuk N. I., Martynyak R. M., Liashenko B. A., and Marchuk V. Ye.</i> Local slip of elastic bodies in the presence of gas in the intercontact gap.....	2	91
<i>Pohrelyuk I. M., Fedirko V. M., Tkachuk O. V., and Proskurnyak R. V.</i> Corrosion resistance of titanium alloys with oxynitride coatings in concentrated inorganic acids.....	2	97
<i>Arhipov O. H., Khoma M. S., Lyfar V. O., and Kovalyov D. O.</i> Monitoring of corrosion-mechanical fracture of equipment using the pulse-electrochemical method.....	2	104
<i>Popovych P. V., Mahlatyuk L. A., and Kupovych R. B.</i> The influence of organic manures on corrosion-electrochemical characteristics of low-carbon steels.....	2	110
<i>Student M. M., Shmyrko V. V., Klapkiv M. D., Lyasota I. M., and Dobrovolska L. N.</i> Assessment of the mechanical properties of combined metal oxide ceramic layers on aluminum alloys.....	2	116
<i>Suberlyak O. V., Krasinskyi V. V., Moravskiy V. V., Gerlach H., and Jachowicz T.</i> The effect of aluminosilicate filler on the physico-mechanical characteristics of polypropylene-polycapraamide composites.....	2	122
<i>Matsko I. Yo., Javorskyj I. M., Yuzefovych R. M., and Majewski J.</i> Analysis of vibration state of a cracked beam under stochastic cyclic loadings.....	2	128
<i>Panasjuk V. V., Ivanytskyi Ya. L., Hembara O. V., and Boiko V. M.</i> The influence of the stress-strain state on distribution of hydrogen concentration in the prefracture region.....	3	7
<i>Syrotyuk A. M. and Dmytrakh I. M.</i> Methods for assessing fracture and strength of pipeline steels and structures under effect of operating environments. P. I. Effect of corrosion factor.....	3	15

<i>Lenkovskii T. M.</i> Fatigue crack growth resistance characteristics of steels under transverse shear (Review).....	3	29
<i>Ostash O. P., Andreiko I. M., Holovatiuk Yu. V., Semenets O. I., and Kovalchuk L. B.</i> Low-temperature and corrosion fatigue crack growth resistance of Д16АТНВ and В95Т1 aluminium alloys after long-term operation.....	3	38
<i>Andreikiv O. Ye., Dobrovolska L. N., and Yavorska N. V.</i> Growth of high temperature creep cracks in metallic materials under hydrogen effect.....	3	45
<i>Revenko V. P.</i> Determination of the three-dimensional stress-strain state of thick-walled two-layer cylinder.....	3	53
<i>Barna R. A. and Popovych P. V.</i> Influence of operating environments on fatigue failure of steels for elements of agricultural machines.....	3	59
<i>Yasniy O. P., Sobchak A. R., and Iasnii V. P.</i> Evaluation of probability of HPP overheater collector fracture.....	3	63
<i>Maruschak P. O., Konovalenko I. V., Panin S. V., Liubutin P. S., Danyliuk I. M., and Zhuravkov M. A.</i> Evaluation of the kinetics of fatigue fracture by automated analysis of the deformation relief on the surface of specimen with a central hole.....	3	69
<i>Yevtushenko O., Kuciej M., and Och E.</i> Modelling of the temperature mode of brake system with account of thermal sensitivity of materials.....	3	77
<i>Budz S. F., Drobenko B. D., and Astashkin V. I.</i> Residual structural stresses in glass bodies.....	3	84
<i>Stadnyk M. M.</i> The stressed state of an infinite body with an elliptic crack in a semi-space under effect of constant heat flow on its surfaces.....	3	89
<i>Fedirko V. M., Lukyanenko O. H., and Trush V. S.</i> Influence of oxygen diffusion saturation on the fatigue and long-term static strength of titanium alloys.....	3	91
<i>Arzhavitin V. M., Borts B. V., Vanzha O. F., Rybalchenko N. D., and Sytin V. I.</i> The influence of yttrium microalloying on relaxation properties of copper.....	3	97
<i>Demchenko V. L., Vilenskyi V. O., and Shtompel V. I.</i> The influence of constant magnetic field on the structure, thermomechanical and electrophysical properties of the systems based on epoxy polymer, metal oxides and polyaniline.....	3	101
<i>Onishchenko D. V., Protsenko A. Ye., and Petrov V. V.</i> Modification of epoxy binder polymer composite by multilayer carbon nanotubes.....	3	107
<i>Skoneczny W.</i> Influence of the nanostructure of surface ceramic coatings on their tribological properties.....	3	111
<i>Dzhogan O. M., Kostenko O. P., Kralia V. O., and Petropolskyi V. S.</i> Analysis of the aerosols glues application during manufacture of polymer-composite material elements.....	3	117
<i>Pokhmurskii V. I., Karpenko O. V., Zin I. M., Tymus M. B., and Veselivska H. H.</i> Inhibiting effect of biogenic surface-active substances in corrosive environments.....	3	122
<i>Hertsyk O. M., Kovbuz M. O., Pereverzieva T. H., Borysiuk A. K., and Boichyshyn L. M.</i> The influence of heat treatment and variable magnetic field on chemical resistance of the amorphous metallic alloys based on iron.....	3	128
<i>Osadchuk S. O., Nyrkova L. I., Rybakov A. O., Melnychuk S. L., Gapula N. O., and Ostapiuk S. M.</i> The influence of products of electrochemical destruction of the protective coating on the pipe steel in a low-alkaline environment.....	3	135
<i>Vashchyslyn L. V. and Nichoga V. O.</i> Detection of a transversal crack in the rail head by wavelet transformations and neuron networks.....	3	142
<i>Syrotyuk A. M. and Dmytrakh I. M.</i> Methods for assessing fracture and strength of pipeline steels and structures under effect of operating environments. P. II. The influence of hydrogen-containing environments.....	4	7
<i>Ivanytskyi Ya. L., Molkov Yu. V., Kun P. S., Lenkovskyyi T. M., and Wojtowicz M.</i> Measurement of local strain near stress concentrators using the digital image correlation technique.....	4	18

<i>Musii R. S.</i> Thermostressed state of electric conductive cylinders under electromagnetic effect in the pulse modulating signal mode	4	25
<i>Andreikiv O. Ye., Dolinska I. Ya., Dobrovolska L. N., and Yavorska N. V.</i> The influence of hydrogen on the creep-fatigue crack initiation in plates near stress concentrators	4	34
<i>Dudyk M. V. and Dikhtiarenko Yu. V.</i> The “trident” model of the plastic zone at the end of the mode I crack terminating at the rough interface of materials	4	41
<i>Kryven V. A., Boiko A. R., and Kaplun A. V.</i> Development of plastic bands under shear deformation of a body with a narrow rectangular slot	4	49
<i>Antonenko N. M.</i> Space deformation of a multilayer plate with elastic connections between layers	4	55
<i>Hachkevych O. R., Solodiak M. T., Terletsnyi R. F., and Tarlakovskyi D. V.</i> Correlation of thermodynamics, energy and force factors of the electromagnetic field effect for magnetic environments	4	62
<i>Kurek M., Lagoda T., and Walat K.</i> Variation of selected cyclic properties depending on temperature of the test	4	69
<i>Melnyk I. V.</i> Analysis of hardness of monolithic reinforced concrete floors with tubular inserts	4	75
<i>Ostash O. P., Vasylyv B. D., Podhurska V. Ya., Vasylyev O. D., and Brodnykovskyi Ye. M.</i> The influence of redox-cycling temperature on structure, physical and mechanical properties of YSZ–NiO ceramics	4	81
<i>Krechkovska H. V., Student O. Z., Kutnyi A. I., Nykyforchyn H. M., and Sydor P. Ya.</i> Brittle fracture resistance of the metal of Shukhov’s lattice hyperboloid tower	4	87
<i>Skachkov V. A. and Berezhna O. R.</i> Physicochemical bases of pyrocarbon porous structure packing from gas phase	4	94
<i>Bulyk I. I., Trostianchyn A. M., Burkhovetskyi V. V., Borukh I. V., Duryahina Z. A., and Lemishka I. A.</i> The dependence of Nd ₁₆ Fe _{73.9} Zr _{2.1} B ₈ alloy phase composition on milling conditions in hydrogen	4	100
<i>Bilous V. A., Borysenko V. M., Voyevodin V. M., Didenko S. Yu., Ilchenko M. I., Nekliudov I. M., and Rybka O. V.</i> The dependence of the radiation-protective efficiency of multilayer Al–Pb composites on their structure	4	106
<i>Balitskii O. I., Koliessnikov V. O., Eliash Ya., and Havryliuk M. R.</i> Peculiarities of fracture of hydrogenated high-nitrogen manganese steels under rolling friction	4	110
<i>Usov V. V., Rabkina M. D., Shkatulyak N. M., and Cherneva T. S.</i> The fractal dimension of grain boundaries and mechanical properties of the oxygen cylinders metal	4	117
<i>Barna R. A., Popovich P. V., and Vovk R. I.</i> The influence of operating environments on fatigue crack grown resistance of steels for elements of agricultural machines	4	125
<i>Pokhmurskii V. I., Bily L. M., Zin Ya. I., and Kytsya A. R.</i> Improvement of alkyd coatings protective properties by nano-scale phosphate pigment	5	7
<i>Kwiatkowski L., Grobelny M., and Konarski P.</i> Selection of processing parameters for conversion coatings on high-strength aluminium alloys by cyclic voltammetry	5	13
<i>Sakhnenko M. D., Ovcharenko O. O., Ved M. V., and Ljabuk S. I.</i> Physico-mechanical properties of Cu–Al ₂ O ₃ galvanic compositions	5	23
<i>Boichyshyn L. M., Hertsyk O. M., Kovbuz M. O., Kotur B. Ya., and Nosenko V. K.</i> Corrosion-electrochemical properties of amorphous Fe–Nb–B alloys alloyed with dysprosium or terbium	5	29
<i>Yaskiv O. I., Fedirko V. M., and Kukhar I. S.</i> The influence of oxygen-containing lead melts on long-term strength of AISI 409L steel at elevated temperatures	5	34

<i>Hredil M. I. and Toribio J.</i> Corrosion resistance of prestressing steel wires.....	5	39
<i>Voloshyn V. A., Zvirko O. I., and Sydor P. Ya.</i> The influence of neutral soil environment on stress corrosion cracking of pipe steel	5	44
<i>Zin I. M. and Khlopyk O. P.</i> Alluminium repassivation at the presence of phosphate and nitrate inhibitors in corrosive environment.....	5	48
<i>Lenkovskiy T. M.</i> The influence of crack faces friction on fatigue crack growth resistance of 65Г steel under transverse shear	5	53
<i>Slobodian Z. V., Mahlatyuk L. A., Kupovykh R. B., and Khaburskiy Ya. M.</i> Compositions based on extracts of oak bark and chips – corrosion inhibitors of low-carbon steels in water	5	58
<i>Nykyforchyn H. M., Lunarska E., Kyryliv V. I., and Maksymiv O. V.</i> Hydrogen permeability of surface nano-crystal structures of carbon steel	5	67
<i>Rusyn B. P., Torska R. V., and Pokhmurskii A. Yu.</i> Modeling of pitting-like defects evolution with application of cellular automata.....	5	74
<i>Buket O. I., Linyucheva O. V., Bludenko A. V., and Nagorniy O. V.</i> The influence of corrosion on the effective resistance of amperometric sensors.....	5	81
<i>Vynar V. A.</i> Corrosion behavior of BH20 alloy alloyed with graphite, chromium and vanadium carbides	5	87
<i>Vorob'iova V. I., Chygyrynets O. E., and Vasylykevych O. I.</i> Mechanism of the protective film formation on steel by volatile compounds of extract cake oil rapeseed.....	5	91
<i>Balitskii O. I. and Chmiel J.</i> Resistance against cavitation-erosion and fatigue fracture of sheet ship building steels.....	5	101
<i>Goliakevych A. A., Orlov L. M., Pokhmurska H. V., Student M. M., Chervinska N. R., and Khylyko O. V.</i> The influence of phase composition of deposited layers of hydrocylinder rods on their local corrosion	5	104
<i>Ivanytskyi Ya. L., Hembara O. V., Shtayura S. T., Kun' P. S., and Kostiv R. B.</i> Evaluation of hydrogen influence on mechanical properties of 40X steel.....	5	111
<i>Onyshko L. Yo., Senyuk M. M., and Onyshko O. Ye.</i> Dynamic stress concentration factors in a plane with a circular hole under action of impact nonaxisymmetrical loads.....	5	116
<i>Mytsyk B. H., Demianyshyn N. M., and Kost' Ya. P.</i> Signs of elasto-optic coefficients in low-symmetry materials	5	122
<i>Savruk M. P. and Kazberuk A.</i> Plane eigenvalue problems of the elasticity theory for orthotropic and quasi-orthotropic wedges	6	7
<i>Delyavskyy M. V., Zdolbitska N. V., Onyshko L. Yo., and Zdolbitskyy A. P.</i> Determination of the stress-strain state in thin orthotropic plates resting on the elastic Vinkler's foundation	6	15
<i>Kravets V. S.</i> The influence of the curvilinear crack shape on the dynamic stress intensity factors.....	6	23
<i>Marushchak P. O., Konovalenko I. V., Panin S. V., Liubutin P. S., Brezinova Zh., Guzanova A., and Sydor P. Ya.</i> Quantitative analysis of the network of thermal fatigue cracks on the material surface.....	6	33
<i>Maksymenko O. P., Ivanytskyi Ya. L., and Hvozdiuk M. M.</i> Evaluation of rigidity of a “ composite–metal” joint by the method of digital image correlation	6	44
<i>Zhang Qin, Molkov Yu. V., Sobko Yu. M., Blikharskiy Ya. Z., and Khmil R. Ye.</i> Determination of mechanical characteristics and specific fracture energy of thermal strengthened reinforcement	6	50
<i>Meshkov Yu. Ya., Shiyani A. V., and Zvirko O. I.</i> The evaluation of operational degradation of gas pipeline steels by the mechanical stability criterion	6	55
<i>Skalskiy V. R., Makeyev V. F., Stankevych O. M., Kyrmanov O. S., and Vynnytska S. I.</i> Alternation of fracture types of dental polymers at different stages of crack development.....	6	60

<i>Nykolysyn M. M., Opanasovych V. K., Kurotchyn L. R., and Slobodian M. S.</i> Biaxial tension of a piece-wise homogeneous plate with two cracks at the materials interface with account of plastic zones at their tips	6	67
<i>Ivasyshyn A. D., Ostash O. P., and Kuzmenko M. M.</i> The influence of thermal treatment on the structure and fatigue crack growth resistance of Ti–10.3Al–3.0Zr–1.2Si alloy	6	73
<i>Salenko O. F. and Khorolska M. S.</i> Improvement of fracture resistance of calibration channel of waterjet devices.....	6	82
<i>Lozynska L. V., Tymoshuk O. S., and Vrublevska T. Ya.</i> Analysis of multi- component systems for the presence of iridium and palladium	6	89
<i>Yasniy P. V., Glado S. V., Skochylyas V. V., and Semenets O. I.</i> Formation of residual stresses in the plate with functional holes after mandrelling.....	6	95
<i>Tkachuk O. V., Proskurnyak R. V., and Pohrelyuk I. M.</i> Analysis of surface and corrosion resistance of nitrided and oxynitrided BT6c alloy in simulated physiological solutions at 36 and 40°C	6	99
<i>Suberlyak O. V., Melnyk Yu. Ya., and Skorokhoda V. Yo.</i> Regularity of synthesis and properties of hydrogel membranes	6	105
<i>Pokmurskii V. I., Khoma M. S., Antoshchak I. M., and Vorobel V. I.</i> The influence of feed-water parameters of WMR-1000 reactors on corrosion- electrochemical behavior of 08X18H10T steel.....	6	112
<i>Zin I. M., Veselivska H. H., Tymus M. B., Ilnytskyi Z. M., Tsiupko F. I., and Hladii A. I.</i> Steel corrosion inhibition with polycarboxylates	6	117
<i>Kret N. V., Tsyurulnyk O. T., and Babiy L. O.</i> The peculiarities of the tool steel corrosion in cutting zone.....	6	121
<i>Gargasas J., Gedzevicius I., Pokhmurska H., Wielage B., Lampke T., Rosert R., and Chervinska N.</i> Wear and corrosion resistance of electric-arc coatings, sprayed with cord wires of type Stein-Mesyfil	6	124
IN SCIENTIFIC CIRCLES		
<i>Rytsar D. I.</i> Defence of dissertations	1	145
<i>Stashchuk M. H.</i> Scientific seminar “Problems of brittle fracture mechanics”	1	149
<i>Veselivska H. H.</i> Scientific seminar “Corrosion. Corrosion protection of metals”.....	1	151
<i>Voytko M. V.</i> Scientific-training seminar for young scientists “PhMI Scientific Schools – from generation to generation”	1	154
<i>Dmytrakh I. M. and Student O. Z.</i> Progress of modern fracture mechanics of materials and prospects of its further development	4	129
<i>Nykyforchyn H. M.</i> The Twentieth European Conference on Fracture (ECF-20)	5	129
IN THE WORLD OF BOOKS	1	155
List of papers published in “Physicochemical Mechanics of Materials” in 2014	6	129
Authors’ index	6	135
