
XIX Workshop and Competition for young researchers in the field of statistical physics and condensed matter theory

Workshop: The 19th Workshop will take place in Lviv at the Institute for Condensed Matter Physics on June 13–14, 2019. Its program will include invited lectures of top experts in statistical physics and condensed matter theory from Ukraine, short communications of young researchers and contributed talks of Competition applicants. The 19th Workshop is dedicated to the 50th anniversary of the foundation of the Lviv Department for Statistical Theory of Condensed States of the Institute for Theoretical Physics (May 1969), which gave origin to the Institute for Condensed Matter Physics.

Competition: Institute for Condensed Matter Physics of the National Academy of Sciences of Ukraine announces an annual competition for young researchers in the field of statistical physics and condensed matter theory. The best studies of young researchers will be distinguished by the Competition Committee with Special Individual Awards.

- The applicants should not be older than 35 years of age at the time of applying.
- Only the studies published during the last 5 years can qualify. The submitted studies should not have won any ICMP Awards for young researchers earlier.

The aim of the Workshop and Competition is to promote the studies of young researchers in statistical physics and condensed matter theory as well as to establish scientific relations among young researchers from different scientific centres of Ukraine. The language of the Workshop and Competition is Ukrainian.

Additional information may be obtained on the Workshop website:

<http://www.icmp.lviv.ua/konkurs/>

The deadline for participants and applications is April 21, 2019.

Address for correspondence:

Council of Young Scientists
Institute for Condensed Matter Physics,
1 Svientsitskii Street,
79011 Lviv, Ukraine

Tel: +38 032 2761978

Fax: +38 032 2761158

E-mail: rmv@icmp.lviv.ua, cys@gmail.com

The Organizing Committee invites young researchers and students working in the field of statistical physics and condensed matter theory to participate in the Workshop and/or apply for the Competition.
